

## Checklist to a Successful Job

### All Reule Jobs Include:

#### Licensing

- License #21447 – Required by Law, assures you're dealing with a legitimate company and allows the state to mediate disputes. Non licensed individuals may limit your recovery options.
- Bonding – Required by the New Mexico Licensing Act.

#### Insurance & Certificates

- Worker Compensation Insurance – Costly for us to maintain, but guarantees you protection against worker injuries (average claim is approaching \$25,000 and New Mexico leads in eye and back injuries). Personal homeowner's policy almost always will *not cover*.
- Liability Insurance – Provides for coverage of damage to property.
- Insurance Certificates – Verifies coverage from insurance company - we can have our agent send original certificate direct from their office to you. Do not accept copies as premiums may have lapsed while coverage appears to be in place.

#### Premium Sto Silicone Synthetic Stucco Materials

- Premium Silicone Resins vs. acrylic elastomeric resins - the highest quality available today. Sto's premium silicone Elastomeric Resins are designated as 285 fine texture or 286 medium texture.
- Silicone resins specifically designed for restoration - offers superb performance for older surfaces.
- Vapor permeable up to 400% better breathability than most acrylic elastomeric resins - on older homes *silicone resins provide elimination of moisture* through the walls *without* trapping moisture behind the finish coats that can cause bubbling, mold in walls and failure of the finishes.
- Non thermo plastic silicone resin vs. acrylic elastomerics that get soft and collect dirt - Sto powerflex Silco silicone resins are self-cleaning and resist staining.
- High performance non organic pigments - provides stable coloration.
- Sto Systems approach - All products from one source, one manufacturer responsible for the warranty and the performance of all materials from patching through the finish coats.
- Sto Flexyl 100% waterproofing for parapets - ensures a lifetime of protection against water intrusion to preserve parapet caps and eliminate water leaks at the critical roof/stucco transition.
- Sto factory seven (7) year labor and material warranties.
- Deep penetrating consolidating sealer - solidifies porous stucco at the bottom to help eliminate water wicking from the ground that could otherwise cause damage to underlying stucco finishes.

- Members Better Business Bureau with the highest A+ Rating with no unresolved complaints.
- Honor Roll status with Angie's List with fewer than 1% of contractors honored by this program, ensuring the utmost in performance standards. Independently reviewed by existing customers.
- Home Builders Association (HBA) - trade group that keeps us on the leading edge to benefit our customers with the latest technology.
- Graduate Remodelers Council Certification - prestigious education certification offered by the HBA. Verified by extensive training and testing to deal with existing structures.
- Green Build Professional Certification - prestigious certification offered by the HBA. Verified by extensive training and testing for this new age of energy efficient building practices.
- EPA - Lead-Safe Certified to ensure proper renovation procedures if lead is present in existing painted surfaces.
